

## PRESS RELEASE

### **CableFree partners with Attrix Technology as strategic partner for South East Asia**

*Strategic expansion of Sales Channel for CableFree's Carrier-class wireless products*

**London, 16 June 2006** - Leading broadband wireless infrastructure vendor, CableFree Solutions today announced latest channel expansion of international sales channel for Asia with Attrix Technology, based in Singapore and with regional presence in key target market countries.

The announcement further demonstrates CableFree's commitment to long-term sustained growth in sales and support of high performance wireless infrastructure products. CableFree's wireless portfolio enables license-free transmission of voice, data and video up to 1.25Gbps in a wide range of applications.

"We are delighted to partner with a respected and established company such as CableFree Solutions" said Raymond Ng, Director of Emerging Technologies at Attrix. "Our customers look for high quality, reliable and cost-effective solutions with commitment to long-term support in the region. With CableFree we have found a partner with excellent track record providing mission-critical wireless infrastructure with a complete range of Free Space Optics (FSO) and broadband radio products."

CableFree Marketing Director, Penny Lee said "We are delighted to be working with Attrix. Having already deployed over two thousand customer networks in over 50 countries, CableFree will be working closely with Attrix to further develop the market for our high performance wireless products in the region. We look for quality partners able to offer excellence in customer service, training and support" continued Lee. "With Attrix, we are confident that customers throughout the region will enjoy first-class customer service".

CableFree and Attrix will be exhibiting at CommunicAsia 2006, Booth no. 3G1-05 . HALL 3 from 20th – 23rd June 2006, Singapore Expo. Show is open 10.30am – 6.00pm
